

Stromme Rust Remover

Product description

Stromme Rust Remover is an acid detergent concentrate for the removal of rust residues from deck paint. Stromme Rust Remover reacts autonomous. The surfactants provide good soil removal. Repaint the treated surface after the cleaning process immediately.

Recommended equipment

Chemical spraying applicator

Stromme Pump Spray Foam System

Water flushing spray gun

Stromme Combi-Jet

High pressure spot cleaning

Stromme Mari-Clean high pressure cleaner

Storage

Store dry and cool at room temperature and protected from solar radiation.

Minimum durability: 2 years from the date of delivery.

Application

Stromme Rust Remover is supplied concentrated in a 25 litre container and has to be mixed with fresh water before use.

We recommend a compatibility test on the surface prior use. **DO NOT** use Stromme Rust Remover on copper, brass or zinc.

Apply Stromme Rust Remover manually or Spray the diluted solution directly on the contaminated surface by using Stromme Pump Spray Foam System kit with the acid lance and nozzles on the surface.

Allow it to work for 5 - 20 minutes, eventually support cleansing with a scrub brush, always rinse with fresh water after reaction.

Flush thoroughly with fresh water by using Stromme Combi-Jet, for close up spot cleaning use Stromme Mari-Clean high pressure cleaner.

Immediately repaints the treated surfaces after the cleaned surfaces dried up.

Mixing ratio

Depending on the degree of contamination, dilute from 1:1 up to 1:10 with fresh water.

To achieve the best cleaning result the above mixing ratio can be adjusted and refine to suit the desired cleaning effect and cost saving.

Safety instruction

Read the safety instructions carefully before starting the work. For further safety handling information please contact info@stromme.com for Material Safety Data Sheet or visit our website: www.sevenseasgroup.com/stromme

WARNING

Adequate equipment for personal protection must be used and respiratory protection with half or full face mask is necessary when working with chemicals and equipment. **The manufacturer and supplier are not liable for improper application and ensuing damages. We recommend checking the surface for suitability before use. For professional use only.**
