

## Stromme Engine Cleaner

### Product description

- Stromme Engine Cleaner is a highly effective and powerful alkaline cleaner with a good dirt carrying capacity. It is an excellent basic cleaner to remove oil contaminants in the engine room and also clean thoroughly enough to ensure a grease-free surface prior to applying a new paint finish on the cleaned parts. It is also useful and effective as a circulating cleaning solution and immersion soaking bath solution in the ultrasonic cleaning machine.
- Stromme Engine Cleaner has a demulsifying effect, it demulsifies in the bilges which assured a smooth operation of the bilge water separator.

**Stromme Engine Cleaner**  
**Product No. 3205-30200**

### Product benefits

- Very effective in removing soot, oil spill and all typical dirt in the engine room.
- Useful and effective as a cleaning solution for the ultrasonic cleaning machine.
- Engine room oily floor looks sparkling clean and shine after cleaning with Stromme Engine Cleaner.
- The 25 litre container is transparent and product is inked with colour to avoid confusion.

### Safety instruction

**When concentrated, Stromme Engine Cleaner is a class 8 hazardous material and corrosive.**

For further safety handling information please contact [info@stromme.com](mailto:info@stromme.com) for Material Safety Data Sheet.

### Storage

Store dry and cool at room temperature and protected from solar radiation.

Minimum durability: 2 years from the date of delivery.

### Application

Stromme Engine Cleaner is supplied concentrated in a 25 litre container and it has to be mixed with fresh water before use. Depending on the degree of contamination, dilute with fresh water from 1:1 up to 1:100 (engine room 1:1 to 1:100, ultrasonic machine 1:4 to 1:30). Do not use the product under blazing sunshine. The cleaning solution is to be applied onto the contaminated surface using a sprayer, or using a sponge, washing brush and a mop to manually assist the cleaning process. Wash away the chemical before it gets dry (do not let the cleaner dry up on the surface) rinse thoroughly with plenty of fresh water afterwards.

### Ecology

The surfactants in this preparation comply with the rules of bio-degradability as defined (EG) No. 648/2004 for detergents - Consequently they are classified as being easily bio-degradable. The product is classified and according to EU directives/German regulations on dangerous substances. The product is not hazardous to the marine environment (NOT-HME) as per GHS criteria. Stromme Engine Cleaner meets the requirements for the protection of the marine environment, as described in Annex V of the MARPOL 73/78 item 1.7.5.

### WARNING

Adequate equipment for personal protection must be used and respiratory protection with half or full face mask is necessary when working with chemicals and equipment. **The manufacturer and supplier are not liable for improper application and ensuing damages. We recommend checking the surface for suitability before use. For professional use only.**
