

Stromme Interior Cleaner

Product description

- Stromme Interior Cleaner is a very mild alkaline cleaner, it is exceptionally gentle and kind to the skin, therefore it can be used without any worry and hesitation by anyone and it is suitable to use on any surface on board the vessel.
- Stromme Interior Cleaner is a highly effective, versatile and cost-effective cleaner, it has a wide variety of uses and covers many types of cleaning tasks like cleaning nicotine stains on walls, ceilings, cabins and mess room, daily cleaning of the gallery, hall and carpets.

Stromme Interior Cleaner
Product No. 3205-30250

Product benefits

- Quick and easy interior cleaning solution for the galley, corridors, upholstery, carpets and interior equipment.
- The 25 litre container is transparent and product is inked with colour to avoid confusion.
- Suitable for different surfaces.
- The cleaning chemical is effective even in high dilution and therefore very economical to use.

Ecology

The surfactants in this preparation comply with the rules of bio-degradability as defined (EG) No. 648/2004 for detergents - Consequently they are classified as being easily bio-degradable. The product is classified and according to EU directives/German regulations on dangerous substances. The product is not hazardous to the marine environment (NOT-HME) as per GHS criteria. Stromme Interior Cleaner meets the requirements for the protection of the marine environment, as described in Annex V of the MARPOL 73/78 item 1.7.5.

Application

Stromme Interior Cleaner is supplied concentrated in a 25 litre container and it has to be mixed with fresh water before use. The application is very simple. Just spray Stromme Interior Cleaner onto the dirty surface and wipe off with a dry cloth. Rinsing with water is not absolutely necessary. Recommended mixing ratio with fresh water is as below:-

- 1:200 to 1:1000 for floors (start with 1:20).
- 1:10 to 1:40 in the kitchen area.
- 1:10 to 1:50 for Carpets and upholstery.

Initially start using 1:20 mixing ratio for floors and adjust accordingly to achieve the optimal desired cleaning effect and cost saving.
