

Stromme Rust Remover

Product description

- Stromme Rust Remover is an acid detergent concentrate for the removal of rust residues from deck paint. Stromme Rust Remover reacts autonomously. The surfactants provide good soil removal. Repaint the treated surface after the cleaning process immediately.
- Stromme Rust Remover contains powerful inhibitors to protect the steel from hydrogen corrosion. We recommend a compatibility test on the surface prior use. **DO NOT** use Stromme Rust Remover on copper, brass or zinc.

Ecology

The surfactants in this preparation comply with the rules of bio-degradability as defined (EG) No. 648/2004 for detergents - Consequently they are classified as being easily bio-degradable. The product is classified and according to EU directives/German regulations on dangerous substances. The product is not hazardous to the marine environment (NOT-HME) as per GHS criteria. Stromme Rust Remover meets the requirements for the protection of the marine environment, as described in Annex V of the MARPOL 73/78 item 1.7.5.

Safety instruction

Read the safety instructions carefully before starting the work. For further safety handling information please contact info@stromme.com for Material Safety Data Sheet or visit our website: www.sevenseasgroup.com/stromme

Storage

Store dry and cool at room temperature and protected from solar radiation.

Minimum durability: 2 years from the date of delivery.

Stromme Rust Remover
Product No. 3205-31126

Application

Stromme Rust Remover is supplied concentrated in a 25 litre container and has to be mixed with fresh water before use. Depending on the degree of contamination, dilute from 1:1 up to 1:10 with fresh water. Apply Stromme Rust Remover manually or spray on the surface and allow it to work for 5 - 20 minutes. Eventually support cleansing with a scrub brush. Always rinse with fresh water after reaction. Immediately repaints the treated surfaces after the cleaned surfaces dried up.

Product benefits

- The quickest in his class, very effective rust remover and has a fast cleaning performance.
- Leaves no white residue.
- Contains inhibitors to protect the steel from hydrogen corrosion.
- The surfactants have a good ecological profile.
- Can be used on many surfaces on ship exteriors.
- The 25 litre container is transparent and product is inked with colour to avoid confusion.
- Suitable for different surfaces.
- Very cost effective to use.

WARNING

Adequate equipment for personal protection must be used and respiratory protection with half or full face mask is necessary when working with chemicals and equipment. **The manufacturer and supplier are not liable for improper application and ensuing damages. We recommend checking the surface for suitability before use. For professional use only.**
